

Prado

Please Note: information is accurate as at November 2023.

Specification and imagery are indicative and should only be used as a guide. Vehicle and accessory specification, features, colour and trim may differ at the time of vehicle delivery.

OH WHAT A FEELING

You'll feel it with every drive. In every twist and every turn. It's our unwavering commitment to move you, not only today, but well into tomorrow as we relentlessly reimagine the future of mobility.

With our eyes on the horizon, we're committed to creating a future where all of humankind is empowered with the freedom to move.

Go anywhere in style

When you consider the many challenges of a modern lifestyle, dropping the kids at school can now be as treacherous as negotiating a mountain pass. Which is why Prado has been designed to provide refined comfort, rugged dependability and smooth driving, whether in town, off-road or out on the highway.

Boasting bold, contemporary and head-turning style, Prado is also purpose built to give you plenty of 4WD muscle to handle the tough stuff. All smartly combined with an abundance of intelligent features and outstanding creature comforts to help make sure you arrive safe, refreshed and relaxed, whatever the destination.

Beauty never looked so tough

The highly refined exterior lines of Prado have not occurred by chance. Every element has been painstakingly designed to serve a specific purpose.

The Prado features a sophisticated chrome vertical grille to give an assured presence on the road. With powerful halogen headlamps on the GX, stylish LED headlamps on the GXL, VX and Kakadu and LED Daytime

Running Lamps standard across the range, the path ahead will be bright even on the darkest of nights.

Particular attention has been paid to refining Prado aerodynamics. Airflow is efficiently redirected around the front bumper, the tyres and wheel housings. It's channelled under the car and over the roof to smoothly exit behind the

vehicle while the aero-stabilising fins support airflow past the outer mirrors and rear lights. Even air flowing through the radiator is carefully deflected to reduce turbulence.

Then should the weather take a turn for the worse, the rain sensing wipers will automatically spring into action.

Sophisticated space inside

When travelling in any environment, on any driving surface, the seating in Prado means you'll always be riding in style.

The 7-seat configuration (optional on the GX) features a 40:20:40 split sliding second row and a 50:50 split fold flat third row to allow a wide range of configurations to handle all types of loads – from seven people to everything for a family adventure and anything in between.

The folding third row seats and the reclining seatbacks are all power operated on Kakadu. Second row passengers will also enjoy excellent legroom and there's easy access to the third row thanks to the slide and walk in functions. And in the VX and Kakadu models (and optional on the GXL), you'll also enjoy the luxurious appeal of leather accented seats as well as the style of double outer stitching.

Find everything at your command

Cast your eyes forward from within Prado, and you'll notice every feature and control has been placed for maximum practicality and visibility.

On Kakadu models, the centre console incorporates the controls for all off-road functions, so it's easy to select what you need, precisely when you need to. At the flick of a switch, Kakadu's drive mode select lets you change between five different drive modes for optimum performance in all conditions.

Every switch is illuminated to catch your eye in all driving conditions. An electroluminescent combimeter with enhanced backlighting presents vital information to drivers in the GX and GXL, VX and Kakadu. It features a colour Multi Information Display with four separate zones of information, including trip information, ride and transmission settings, outside and travel conditions and details of many vehicle operations and drive functions.

All models come with satellite navigation¹ as standard, helping you get to where you need to go.

Comfort to master every situation

Whether in traffic, out in the wild, on holiday or a family weekend away, you'll always be travelling first class in Prado. It begins with the smart entry and start system, allowing you to unlock and get going while the key remains in your pocket or bag.

Gently grip the premium steering wheel on the GXL, VX and Kakadu, and you'll find the switches for cruise control, audio and phone functions at your fingertips.

You'll always stay comfortable in heated and ventilated front row seats as well as heated

second row outer seats in the Kakadu and VX (both also available on GXL with leather accented option pack). When things start heating up, air conditioning with a clean-air filter will keep you cool, featuring automatic 3-zone comfort on GXL, VX and Kakadu models, including a separate rear control panel.

With a minimum of nine and a maximum of fourteen speakers, Prado sounds as good as it looks. Experience breathtaking audio quality through Apple CarPlay,^{®3,4} Android Auto^{™,3,5} (speak to your Dealer about device compatibility)

and radio. As well as advanced connectivity via Bluetooth^{®3,6} with audio streaming or via a USB input. And all can be operated using simple touchscreen control.

Rear passengers in the Kakadu can also enjoy video entertainment provided by the integrated Blu-ray[™] player with a large 9" colour monitor, while listening on wireless headphones. The luxurious touches even extend to a refrigerated cool box in the VX and Kakadu centre console with space for four 500ml bottles.

The power and the glory

.....

Prado is equipped with an impressive 2.8 litre turbo diesel engine, delivering 150kW of direct-injected power and 500Nm of torque, so you'll have the grunt to tackle the muddiest trails. Make the most of Prado's 3,000kg braked towing capacity,⁸ with peace of mind that you've got all the muscle you ever need for all your adventures.

Even with such impressive performance, this engine also delivers sufficient fuel efficiency with 7.9L/100km.⁹

Now go and get rough

When the time comes to farewell the bitumen and head off-road, Prado is built to take you there and safely back again. With Variable Flow Control power steering, you'll experience the ideal feel and level of assistance to suit the conditions.

The double wishbone front and 5-link rear suspension provide excellent handling stability and comfort even when the going gets rough. The Kinetic Dynamic Suspension System on the Kakadu model hydraulically controls the suspension to provide gentler behaviour. The Adaptive Variable Suspension system on the Kakadu also allows you to choose from three modes to dampen the shock absorbers to suit particular driving conditions.

You'll also appreciate the advanced off-road assistance of Active Traction Control (A-TRC) to help eliminate wheel spin on slippery surfaces by automatically distributing the power to the tyres with the best grip. When faced with heading up or down steep slopes, Hill-start Assist Control (HAC) and Downhill Assist Control (DAC) will help reduce rolling backwards or descending too fast and getting out of shape.²

The Kakadu also features crawl control to allow you to maintain a low constant speed on challenging surfaces by automatically and independently controlling both engine power and brake input to each wheel.² The Multi-Terrain Select system on Kakadu is an evolution of the A-TRC function and allows you to select grip assistance according to the terrain. Plus the rear differential lock, available on GXL, VX and Kakadu, can be activated to further optimise grip.

Keeping you in touch with the situation, the Multi-Terrain Monitor on VX and Kakadu allows the driver to get a close look at the conditions right around the vehicle.²

Safety throughout

Wherever your Prado takes you, an incredible array of safety features will protect you. The 'Safe T-Cell' body is designed to take impact from the front, rear and sides. Seven SRS airbags, including full-length side curtain-shield airbags, help provide you with all round protection.

Vehicle Stability Control, Anti-Lock Braking System (ABS) and Traction Control work together to help correct any potential oversteer or understeer when cornering, while Electronic Brake-force Distribution automatically puts more braking force on the wheels that need it most.² If you're towing, Trailer Sway Control (TSC) uses sensors to suppress sway triggered by elements including wind, bumpy roads and the steering operation.²

The reversing camera provides clear vision of what's behind,² with a Back Guide Monitor on the VX and Kakadu. On the GXL, VX and Kakadu, parking sensors give an audible warning to help avoid certain obstacles when parking. Blind Spot Monitor uses radar to provide a visual warning if another vehicle is detected in a blind spot,² while Rear Cross Traffic Alert warns you of approaching traffic detected when reversing out of a parking space.² The Panoramic View Monitor on the VX and Kakadu also provides a handy bird's-eye view display of the areas around your vehicle, making manoeuvring a breeze.²

The added active safety benefits of Toyota Safety Sense are also available as standard.

Toyota Safety Sense

Toyota
Safety
Sense

At Toyota, we believe it's simply not enough to say "safety comes first" – we prove it. That's why, in our ongoing pursuit of creating ever safer cars, now and into the future, we developed Toyota Safety Sense² (TSS). A suite of active safety features designed to help support safe driving and help protect you and your passengers.

Prado features TSS driver assistance technologies, aiming to recognise and help avoid certain hazards and collisions, giving you and your passengers greater peace of mind wherever you're headed. Prado TSS features are standard across all models and grades. Please visit toyota.com.au for vehicle and specification information.

Pre-Collision Safety system with pedestrian and daytime cyclist detection

Pre-Collision Safety (PCS) system² with pedestrian and daytime cyclist detection is a multi-stage warning system. Using an integrated camera and radar to help detect other vehicles in front of you, the PCS is designed to assist the driver where there is a likelihood of frontal collision with cars and pedestrians during day or night, or cyclists during the daytime. PCS includes a visible and audible alert of possible collisions, additional braking force to assist when you're braking, and if a collision appears to be unavoidable, automatic braking to help mitigate impact.

Active Cruise Control (all speed)

Active Cruise Control² is designed to help keep a constant distance between vehicles. It uses a millimetre wave radar to monitor the gap between your vehicle and the one in front, automatically accelerating or slowing down when needed to help you maintain a set distance.

Lane Departure Alert with steering assist

Lane Departure Alert² is designed to help prevent vehicles drifting from their lane, by monitoring road markings, and providing a visible and audible alert should it detect any deviation from the lane. It may also apply additional steering force if needed, to help you stay in your lane.

Automatic High Beam

Using a camera to sense either approaching headlights or the taillights ahead, Automatic High Beam² aims to help maintain safe and considerate driving by switching between high and low beam as needed.

Road Sign Assist (speed signs only)

Road Sign Assist² was developed to help recognise road speed signs and provide information to you. It displays the most recently recognised speed limit on the Multi Information Display.

Prado GX

Smart entry and start system

17" alloy wheels

- 2.8L turbo diesel engine
- 6-speed automatic
- 17" alloy wheels
- Halogen headlamps and LED Daytime Running Lamps
- 150L fuel tank – 87L main tank, 63L sub tank
- 3,000kg braked towing capacity⁸
- Smart entry and start system
- 4.2" colour Multi Information Display
- Rain sensing wipers
- Reversing camera
- 9-speaker audio system with AM/FM tuner, USB input and Bluetooth^{6,11} connectivity
- 9" colour touchscreen display with Apple CarPlay^{3,4} and Android Auto^{TM,3,5} – speak to your Dealer about device compatibility
- Satellite navigation
- Blind Spot Monitor
- Rear Cross Traffic Alert
- Toyota Safety Sense – including Pre-Collision Safety system with pedestrian and daytime cyclist detection, Lane Departure Alert, Active Cruise Control (all speed) and Road Sign Assist (speed signs only)
- 5 seats – 7-seat option available
- Diesel Particulate Filter forced burn off switch

3,000kg braked towing capacity⁸ – tow bar, tow ball and trailer wiring harness sold separately

Prado GXL

Bi-LED headlamps

Side steps

In addition to, or in replacement of, GX features:

- 7 seats only – as standard
- Bi-LED headlamps and LED fog lamps
- Auto-levelling headlamps
- Rear privacy glass
- Premium steering wheel with audio and telephone controls
- 3-zone climate control air conditioning
- Rear differential lock
- Rear parking sensors

Option 1: Leather accented pack

- Optional leather accented pack: power front seats, heated seats (front and 2nd row outer) and ventilated seats (front row)

Option 2: Flat tailgate pack

- Optional flat tailgate pack: flat tailgate, glass hatch, full size spare underneath vehicle, 87L fuel tank (no sub tank)

Optional leather accented pack

Unlock it all

When you join the Toyota family, you get so much more than a new car feeling. You unlock a whole range of benefits to keep you moving now and well into the future.

Discover your Toyota lifetime of advantages at toyota.com.au/owners

Toyota Genuine Accessories¹⁵

Developed alongside the vehicle, this unique advantage allows Toyota to design accessories, so they integrate harmoniously with the vehicle structure and safety systems. For more information, visit toyota.com.au/accessories

Toyota Service Advantage¹⁶

We'll keep the cost of your standard logbook service at a capped price for up to your first 3 or 5 years on the road, depending on the vehicle model. To find out your low capped service price, visit toyota.com.au/owners/service/service-pricing-calculator

Toyota Genuine Insurance¹⁷

With Toyota Genuine Insurance you're not alone. Over 350,000* Toyota owners have made the same choice because they know their Toyota's in safe hands. For more information, visit toyotainsurance.com.au

Toyota Access

Offering flexible finance options, lower monthly repayments¹⁸ and a Guaranteed Future Value,¹⁹ a Toyota Access Loan means you can drive the Toyota you want today, knowing the future is taken care of. When your loan ends, you have options to trade, keep or return your vehicle. For more information, visit toyota.com.au/toyota-access

Toyota Certified Pre-Owned Vehicles

Enjoy the reassurance that comes with a Toyota Certified Pre-Owned Vehicle. Including an additional 1-year Toyota-backed warranty,²⁰ full-service history and 90-point inspection by Toyota Technicians. For more information, visit toyota.com.au/certified

Toyota Warranty Advantage²¹

Stick to your service schedule, and we'll extend your engine and driveline warranty from five to seven years, so you can drive stress-free for longer. For more information, visit toyota.com.au/owners/warranty
